The numerous events in the accompanying program (see presentations online) also met with overwhelming response.

Whether regarding one of the three main sessions on Skills development and the value chain approach, on Circular economy or on Finance, Start-ups and Digitalization, the presentations were eagerly received and there were fierce discussions.

This is particular true of the Nigeria-Belarus Business Forum.
Market update: Facts about Nigeria at a glance

**Economic data**
- Nigeria is Africa’s largest economy
- 5th largest oil exporting and 11th largest gas exporting country
- A regional power with major influence in the region
- Listed among the „Next Eleven“ economies
- Expected to become one of the world’s Top 20 economies by 2050

**Population**
- 201 million inhabitants (2019)
- The most populous country in Africa and the 7th most populous country in the world
- Expected population by 2050: 411 million

**Strengths**
- Huge oil and gas reserves
- Abundance of natural resources (oil, gas, agricultural land)
- Attractive consumer market due to high population
- Revival of agriculture & food industry

**General opportunities**
- Exhibitors profit from massive investments into the consumer industry, the construction of shopping centers and an increasing demand for machinery and equipment
- Engineering: an increasing demand by growing consumer market
- Chemistry: Diverse customer industries (construction, agriculture) with good economy

**Opportunities in the agrofood industry**
- Recession caused revival of local food production and „Made-in-Nigeria“ trend; political will to expand local food production
- Massive investments in agricultural technology and processing and packaging equipment
- Increase of yields - Reduction of immense post-harvest losses - Reduction of import bill
- Experts foresee Nigeria to become the region’s main food supplier
- Medium-term development extremely promising
- Biggest market for food products in Africa - still undersupplied

**Foreign trade**
- Imports
- Exports
- Balance

**GDP**
- 2017: 376
- 2018: 397
- 2019*: 445
- 2020*: 496

Why exhibit in agro AgroTech Nigeria?

DLG and fairtrade cooperate for agro AgroTech

agro Nigeria has been organized by fairtrade as part of agrofood Nigeria ever since 2015. In 2018, DLG (German Agricultural Society) entered into strategic partnership with fairtrade and brings in its agro expertise. The focus of the cooperation lies on agricultural technology, animal production, flor- and horticulture and hot-house technology.

Organisers of the world’s No. 1 trade shows Agritechnica and Eurotier, DLG is the global leader in professional trade fairs in the fields of agricultural engineering, crop production, animal production and bioenergy. DLG has been organizing trade fairs and exhibitions for the agricultural and food sector since 1885.

Voices of the exhibitors 2019

Dieter Rohlf
Area Sales Manager Africa - ANDRITZ
ANDRITZ Feed & Biofuel Technologies is a corporate group with worldwide development, production and supply activities within technology and after-sales service to the feed and biofuel industries. Nigeria is a very promising market for us because it’s the biggest economy in Africa. Also, it has the largest population, which means future consumers for us.

Our visitors are really interested and qualified. For us, the highlight at agrofood Nigeria is the excellent organization. We trust that it will continue in the future.

Eugeniy Vvedenskiy
Director of Belinterexpo Exhibition Unitary Enterprise of the Belarusian Chamber of Commerce and Industry

As the biggest African economy with the largest population, it’s a good choice for the first-ever country pavilion we had in West Africa. The Nigerian people are extremely friendly and easy going. For sure we will continue exploring this market.

We had an unexpectedly high number of interested visitors. So we’ve got the chance to connect with people from all sectors, for example, farmers, food manufacturers, traders, etc. Most of them were professionals which is very good.

The fair itself was a comfortable platform with everything you need to do business successfully. We will definitely consider bringing our pavilion to agrofood + plastprintpack Nigeria again.users and to connect with them on site.

Put the Nigerian agricultural sector on a growth path
Why exhibit in food + bev tec Nigeria?

Nigeria soon to become the largest importer of food technology in sub-Saharan Africa. Enormous population growth and high sustainable investments in its food industry

- With 303 million euros in 2018 (+13% compared to 2017), Nigeria is the second largest importer of food and beverage technology in sub-Saharan Africa, just behind South Africa (332 million euros).
- But while South Africa’s imports not only failed to grow between 2015 and 2018, but even dropped from 376 to 332 million euros, Nigeria’s imports increased by an average of 10% per year over the same period. So Nigeria will soon overtake South Africa.
- Nigeria’s immense population of currently 200 million, which according to the United Nations will increase to 400 million by 2050, requires strong sustainable growth.

Nigeria soon to become the largest importer of packaging technology in sub-Saharan Africa. Enormous population growth and high sustainable investments in its packaging industry

- With 158 million euros in 2018, Nigeria is the second largest importer of packaging technology in sub-Saharan Africa, just behind South Africa (175 million euros).
- But while South Africa’s imports failed to grow, Nigeria’s imports increased by an average of 10.2% per year between 2015 and 2018. So Nigeria will soon be passing South Africa by.
- Nigeria’s immense population of currently 200 million, which according to the United Nations will rise to 400 million by 2050, requires strong sustainable growth. This is why Nigeria invests heavily in its packaging industry.

Why exhibit in food + bev tec Nigeria?

Voices of the exhibitors 2019

Alberto Quintavalla
Sales Area Manager - CFT

The Nigerian market is interesting for us because of the huge population. We are talking about more than 190 million people who need a well-developed agrofood industry.

We meet many of our traditional customers here at the show to discuss current projects. But we also have the opportunity to win potential new customers.

The major advantage of agrofood is to connect us machinery producers with the Nigerian industrial sector.

Lalit Ganwani
General Manager – General Industry - First Blends

First Blends is the leading manufacturer of functional solutions and the premier service provider to the cereal food industries in Nigeria and West Africa.

For us, it’s important to partner with international companies and help the industry to grow and take it to the next level. We will provide our customers the highest quality products and get a good feed on our standards.

agrofood is getting bigger and bigger every year, with more exhibitors, customers and visitors. That’s great! So we are able to showcase our products to more and more customers.

Markus Palm
Head of Sales for African region – Krones

Krones plans, develops and manufactures machines and complete lines for process, filling and packaging technologies.

Nigeria is an important market for us because of the high population as well as the growing middle class and the stable political situation.

At agrofood we meet existing clients but also new ones. We’re impressed by the program and the speakers especially the “Consulate meet and greet”. Our highlight at agrofood is the chance to connect with major global players in our business.

Expenditure in Nigerian food and beverage sector to grow significantly between 2019 and 2023

see more testimonials
Demand for F&B ingredients rising continuously

With almost 200 million inhabitants, Nigeria has long been the largest food market on the African continent. Expenditure in the F&B sector is growing steadily and F&B production is by far the largest segment of the Nigerian processing industry.

Accordingly, the demand for food and beverage ingredients is rising continuously. So it was only natural that more and more leading international ingredients companies took part in agrofood Nigeria.

Top food ingredients exhibitors 2019

With food ingredients Nigeria, fairtrade is responding to the request of exhibitors for their own partial tradeshow under the umbrella of agrofood Nigeria.

Just like iran food ingredients which fairtrade established a few years ago in Tehran under the umbrella of iran agrofood.

Patrick Ajala  
Sub-Regional Account Manager - Symrise

Nigeria is an important market for Symrise and we feel the need to claim business opportunities in this ever growing market. Also, it’s in the responsibility of Symrise to continue to progress in how we engage traditional customers and attract to support start-ups.

The strong point about agrofood Nigeria is it supporting us as an excellent business platform for local and international suppliers to showcase their ideas, concepts and capabilities.

fairtrade - valuable business contacts

fairtrade was founded by Martin März in 1991. Since long, fairtrade ranks among the leading organisers of professional international trade fairs in emerging markets, especially in North and Sub-Saharan Africa, the Middle East and Eastern Europe.

Managed by its shareholder and his son Paul März and committed to the values of a family business and the team spirit, fairtrade maintains a powerful network of partnerships throughout the world.

fairtrade organizes shows in the sectors Agrofood, CIT Solutions, Energy, Environment, Industry and PlastPrintPack and strives for a high level of customer satisfaction.

By means of innovative products and excellent service fairtrade organizes professional platforms for valuable business contacts between exhibitors and visitors.

fairtrade is a member of UFI The Global Association of the Exhibition Industry and AAXO The Association of African Exhibition Organisers.

Our management system is ISO 9001: 2015 certified.
